COMING AND GOING TRAINS.

The diversity of the trains of fast trains that come upon the community.

The official returns of the city of New York show that nearly three-fourths of all drunks are from consumption. When we stop to call and think over this fact, it is really awful, and yet every case without exception started from small beginnings. A cough in the morning, tickling in the throat; a thick phlegmy discharge; chillsness at night; difficult breathing; a tightness across the chest; these and many more symptoms indicate the presence of that terrible disease which, unless checked, means certain death with long and painful suffering.

In view of such serious and ever-present facts the suggestions and advice of the most eminent physicians are of great value.

Dr. John Gardner, one of the most eminent physicians in London, says: "Science, common sense, Holy Scriptures and all experience testify to the benefits derived from the use of pure whiskey."

Dr. D. H. Barker says: "I have used and examined Duffy's Pure Malt Whiskey, and find it the best I ever tried."

Dr. S. M. Buckwalter says: "Duffy's Pure Malt Whiskey is, without doubt, the invalid's drink when stimulants are indicated, and I find all chronic cases require stimulants, and a large percent of the acute ones also."

These truths from the lips of the leading scientific men of the day, and confirmed by the experience of men and women well known in the community should serve as a guide for all who feel the approach of consumption no matter by what path it may come. We do not hesitate to assert that any man or woman who will use Duffy's Pure Malt Whiskey according to directions can safely consume and prolong life with all its blessings.
